Col. Roscoe Turner, President
Roscoe Turner Aeronautical Corp.
Municipal Airport
Indianapolis, Indiana

Dear Roscoe:

Thank you for your letter of
July 19th. It is nice to hear from you again.

The delivery situation on Motor
Glides is not good at the present time, with
priorities of AA-3 or better deliveries are running
about 60 days.

We are in the process of completing
a new and larger model with a 5 h.p. engine and
16" tires. This will be submitted to the Army
for testing at Aberdeen, Maryland, and I would like
to have you see it while it is in the East, as it
is turning out to be a very splendid machine. The
chances are I will come East about the time this
machine is shipped so hope I can stop off and see
you in the near future.

Kindest regards,

Sincerely yours,

SALSBURY CORPORATION
