Municipal Airport  
Indianapolis, Indiana

Dear Roscoe:

I wish to thank you for your letter of October 27 and the enclosed information on the Cushman machine.

Their talk about immediate delivery sounds like a lot of "hot air" to me as I was told by the Navy Department a couple of weeks ago that they have failed to deliver a single machine on a contract which was issued last July and called for delivery during August.

I had lunch with a friend of yours last week, Mr. Don P. Smith of Interstate Aircraft Company. He and his company seem to be interested in working on some of our post war program with us. If you can, I would appreciate your passing on to me any general information about this man and his organization.

Kindest regards and best wishes,

Sincerely yours,

*Truster*
