Dear Roscoe:

Congratulations!

I was certainly glad to learn of your success yesterday in winning the Thompson Trophy Race. I was also glad to know that you plan to retire from racing.

I thought you would be interested in knowing that we have a substantial deal pending with Sears Roebuck & Company for a machine to be manufactured under their own tradename. In this connection it is quite essential that we make some arrangement for Mid-West production facilities.

If you can, confidentially, interest an Indianapolis manufacturer or group of substantial businessmen I believe we can submit a very attractive proposition.

If you can spare a few minutes I would appreciate a line from you as to what you feel is possible in this connection.

Kindest regards and best wishes.

Sincerely yours,

E. F. SALSBURY,  
President.
